●The meaning of the title:
To create dream and future Korabo(collaboration)

Q. What is 'Gender Equality'?

Many of you may think 'It seems difficult.' or 'It is nothing to do with me.' 'Gender Equality' means that everyone recognizes each other, esteems themselves and constitutes a heartwarming society.

It means...

Being yourselves.
Don't you decide that a man should be this or a woman should be this?
What's important is one's personality.

It means...

Esteeming others.
Don't you shoulder all of the parts in your family, place of work and local community or entrust the parts to a person?
We should consider one another and share the pleasure and the responsibility.

It means...

Increasing options of your life.
Don't you entrust important roles to men and the supporting to women?
Don't restrict a part by gender, and construct a society where each of us can demonstrate our abilities.
