Kakegawa Area

Refuse Sorting Manual

Basic Rules for Refuse Collection

- Refuse collection sites are determined by area residents. If you do not know the site location, please ask your apartment building manager, someone at your office, or a neighbor.
- Bring your refuse to the collection site only on collection days, and before 8:30 a.m. Do not bring it the day before or before dawn.
- For collection, separate your refuse into combustible and noncombustible refuse, and place it into the proper refuse bags designated by Kakegawa City. Designated refuse bags are available at general stores, supermarkets, convenience stores, and other stores.
- Writing your name on the bag for reference depends on the collection agreement for your area.

Combustible Refuse

Noncombustible Refuse

Please be sure to put your trash in the designated bag.

Combustible Refuse (to be burned)

Twice per week:
Use the designated polyethylene bags for collection.

Bring refuse that is too large for the designated bag to the Environmental Resource Gallery.

Garbage
(drain any liquid from the garbage before collection)

Seashells and oyster shells

Paper diapers
(first, flush all excrement down the toilet; collection of paper diapers only)

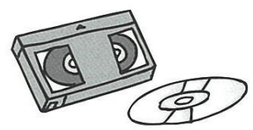
Rubber

Plastics

Cat litter (sand)

Cloth and Clothing

Leather
(detach any metal pieces)



Videotapes and CDs

PRINTED WITH SOY INK

Plastic resources (plastic containers and packaging)

Once per week: Place them into the blue net basket at the resource collection site used for this purpose.

This mark appears on recyclable plastic containers and packaging:

Main Items for Recycling

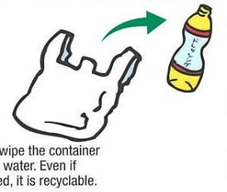
Rules for Recycling

①At your home

Do leave food contents in any containers or packaging.

To remove the odor and any solid food, wipe the container with a paper towel or rinse it clean with water. Even if colored, or labels or stickers are attached, it is recyclable.

②At the collection site



●Remove containers and packaging from any bags used for carrying them, and place the containers and packaging into the net basket.

●Tie the plastic carrying bag into a knot, and place it separately into the net basket.

Noncombustible Refuse (items that will not burn, or will be recycled)

Once per month: Use the designated polyethylene bags for collection.

Bring refuse that is too large for the designated bag to the Environmental Resource Gallery.

Mirrors, glass, and china
(wrap glass and china with paper to prevent injury)

Aluminum
(Please clean the item, for recycling.)

Cookware
(excluding cans)

Lighters
(discharge all the gas from each lighter)

Blades and magnets
(wrap blades with paper)

Light bulb

Spray cans

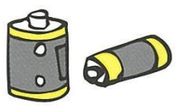
After emptying the gas from each spray can, go outdoors and punch a hole in the can, to prevent explosions.

Small appliance
(cut off the power cord, and bind the appliance with twine or rope)

*Wrap wire into a bundle, and tie hangers together with twine.

Dry and rechargeable batteries

Once per month: Put batteries into the special container at the resource collection site that is exclusively used for batteries.



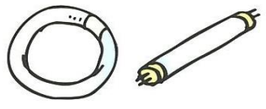
Dry batteries

Rechargeable batteries

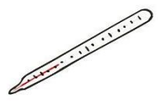
Button-type batteries

Fluorescent tubes, clinical thermometers, and mercury thermometers

Once per month: Place a discarded item into the packaging of the new item, if you have one.



Fluorescent tubes

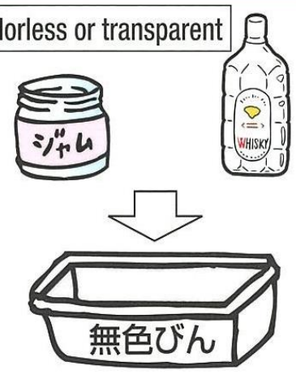


Clinical thermometers

Bottles

Once per month: Place them into the special container at the resource collection site used for this purpose.

Colorless or transparent



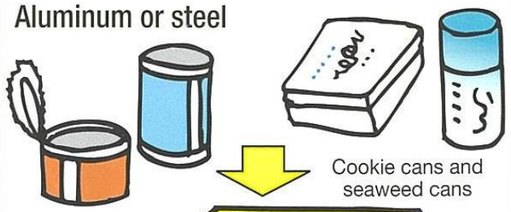
Brown

Blue, black, green, and other colors

Cans

Once per month: Place them into the special container at the resource collection site used for this purpose.

Aluminum or steel



Juice cans
Food cans
Powdered milk cans
Tea cans

Cookie cans and seaweed cans
